# "Neither Snow, Nor Rain...

Herodotus, the Greek historian, said it in the 5th century, B. C., and you'll find it today inscribed on the main post office in New York City: "Neither snow, nor rain, nor heat, nor gloom of night stays these couriers from the swift completion of their appointed rounds." With the Christmas rush not far behind us, it's a good time to pay tribute to those who, day in, day out, in fair weather or foul, see that the mail gets through. Your postman deserves a pat on the back, but he'll settle for a smile . . . Incidentally, the motor truck plays a vital part in the distribution of the mail serving the length and breadth of Michigan, from the most densely populated cities to the most remote rural areas.

It's easy for the pessimist to say that the days of oprtunity in America are over. But opportunity is still ry much around for the individual with a good prodt or idea and the enterprise to follow it up. Somenes the results can nearly bowl you over, as demonrated by one American housewife in a story told in e Carlsbad, New Mexico, Current-Argus.

Back in 1937, in Fairfield, Connecticut, Mrs. Maggie ıdkin, 40, decided home-made bread would help her thmatic son. Although she had never baked bread fore she remembered the way her grandmother used make it when she was six years old. Proceeding acrdingly, she used whole wheat flour, sweet creamery itter, fresh whole milk, salt, honey, cane syrup and her ingredients. Her son's doctor liked the bread and ked her to make some for his other patients. A local ocerv store took some extra loaves, sold them quick-

and wanted more. Other nearby stores and bakeries came interested and then her husband, a New York oker, began taking loaves to the city for sale to an eight different state of the story. February 8, 1961

As a member of the House Committee of our American Legion Post 106 here in Grayling, I wish to make the following facts known to the residents of our community that the community is the community of the commun community.

For the past few years, the annual Michigan Winter Sports Queen's banquet was held in the banquet hall of the local Legion Club, which I personally feel is the most ideal and the most logical place to hold an affeir of this size, but there has been considerable talk in and around our town that the Legion turned the ban-quet down this year, for some reason unknown to me.

The members of the House Committee of the American Le-gion want the people of our community who are responsible for the existence of the Legion Club-and all its facilities, to know that we were never approached as the governing body of the Legion for the purposes of renting the ban-quet hall for this year's Michigan Winter Sports Queen's Banquet. Had we been contacted, we, as the governing body, would have ex-tended our fullest cooperation in every respect.

By Mrs. Harry Horton

A birthday party for Dale Cox, son of the Ursel Coxes, was cele-brated on Monday, February 6th. Arvle Cox, Mrs. Marie Densmore, Ival Hopkins and two daughters, Zandra and Linda were guests. Coffee and cake were served by Mrs. Donna Cox.

Nine boys went over to Mrs. Gerric Meyers' on Thursday, the 9th, at 2:30 p. m., to help her son David celebrate his 9th birthday. Each boy received a favor, and ice cream and hot chocolate were served by Dave's mother. He re-ceived some very nice gifts and they all had a nice-time. Happy birthday, Dave, from Uncle Harry and Aunt Lizzie.

# Beautifully built to set trends in styling and savings beautifully built to take care of itself

This is probably the most imitated Look in automobiles today. Take the roofline, for instance. (Most other cars have!) Yet it looks best on its original setting, the Ford Galaxie. The roof and all the rest of the car were designed to go together. This is what makes the Classic Ford Look.

Moreover, this car is as beautifully built as it is beautifully shaped. As Ford takes care of itself, it takes care of your budget.

See the roster at right, and you'll con-clude: This is the Ford in your future. May we open its door to you ... soon?

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

Cloons its own cli.—You go 4,000 miles between the changes with Ford's Full-Flow oil-filler (which better through specially packed fibers).

Suands the corn muffler—Ford mulliers are double-virapped and aluminized to last three times as long as ordinary mufflers.

Protects its orm body—All vital underbody parts are specially processed to resist rust and corresion, even to galvanizing the body panels beneath the doors. Tatios care of its own finish—just wash and clean Ford's new Diamond Lustre Finish and it will continue to glisten like new. It never needs waxing.

Extended Warrenty— Each part of '61 Fords, except tires, is dealer warranted against dotects in materials or workmanship for 12 months or 12,000 miles, which year comes first. Owners remain responsible for against maintenance service and routine replacement of maintenance liems such as filters and facilities contained in maintenance items such as filters and facilities contained.

### Crawford Watercraft Growth Indicated

A year-end report issued by

lgan for use in the Great Lakes State, reached 343,968 during 1960," Hare said:

"This is a watercraft decade,"
Hare believes. "As Americans get
shorter work weeks and longer
vacations many more will-turn toward the water for their recreation."

Hare attributed much of the increasing boat registrations to the fact that watercraft have replaced automobiles as status symbols many levels of American life.

"Michigan as the Water-Wonder land should take advantage of this coming boom in boating." Hare said. "With expanding national freeway systems it is easy for millions of people living in lakescarce midwestern areas to put

scarce midwestern areas to put their carft on a trailer, hitch it to their car, and roll on to our Great Lakes State."

The 11,182 registrations of watercraft owned by out-of-state owners include only those belong-ing to boat enthusiasts who do not maintain a permanent moor and operated the Lewis Collection agency in Saginaw for several rears, and previously had been employed by the Saginaw Steerning Gear Plant.
